The best thing about playing at Wenatchee Valley College is...the genuine nature of the team. Everyone plays for the whole, not the individual. Plus you live in the best community and are supported by people who care about your success.

My hero is...Barbara Braendlien.

- If I could only eat one thing for the rest of my life it would be...buffet.
- On game day I...listen to “Fort Minor” and “Remember the Name” on my way to the field and I always straighten my hair.
- When I grow up I want to be...either an occupational therapist or an English teacher.
- The most famous person I have ever seen or talked to is...Jim Morris.
- You might be surprised to know...I was born in my Dad’s Ford truck on the freeway in Yakima and I played the tuba in high school.
- My favorite sports memory is...last year when Pierce was being really loud in pre-game warm-up on our field and “T” jacked a bomb over the right field fence to start the game.
- The song that best describes my life is...”Take My Hand” by Shawn McDonald.

Our season will be a success if...we stay tight as a whole,
always push each other to do better, play with the end in
mind and love each other and everything we do.
