RUNNING START YEARLY PLANNER

NAME_____MAJOR_____UNIVERSITY_____

WHAT DO YOU WANT TO ACCOMPLISH IN RUNNING START? CHOOSE THE MOST IMPORTANT ONE.

_____I want to complete my high school graduation requirements.
_____I want to work on completing college General Education requirements.
_____I want to start on the prerequisites for my chosen college major.
_____I want to complete my AA degree and graduate from high school at the same time.
_____I just want to take college level classes.

By choosing Running Start you are beginning your college career even though you are still in high school. To complete the first two years of college you must earn 90 credits, approximately 18 five credit classes, which are general in nature, broad in scope, and allow you to enter the major of your choice by the junior year. If you complete more than 90 credits you may not apply them to your junior or senior years of college. Therefore, to truly get a "running start" it is wise to carefully choose the courses you take while in the program to meet the goals you have set for yourself. Your choice of classes should reflect your research into college choice, major, and your main reason for entering the program. In some instances it may not be possible to meet all your goals at once. Whether you choose to get an Associates Degree at Wenatchee Valley College or not, the content of the first two years in any college is much the same. The main difference will come from the major you choose and the prerequisites required to enter that major at a particular University.

GENERAL EDUCATION REQUIREMENTS (GER'S)	**WENATCHEE VALLEY COLLEGE AAS REQUIREMENTS**
10 credits of English Composition	Engl 101 and Engl 201, 202, or 203
5 credits of Quantitative Reasoning	College level math or equivalent depending on major and school
15 credits of Humanities Distribution	See list in WVC catalog
15 credits of Natural Science Distribution	See list in WVC catalog
15 credits of Social Science Distribution	See list in WVC catalog
30 credits of Electives to include major prerequisites and other specific university requirements.	Must include 3 credits of Life Skills

DIRECTIONS FOR MAKING A YEARLY PLAN:

1. Go to the university web site of your choice.
2. Select a major.
3. List all courses prerequisite to the major with numbers 100 or 200 (Freshman/Sophomore level).
4. In the WVC catalog find courses that are the equivalent of the above and list the numbers or pull up the transfer guide on the university you have selected and find the equivalencies for WVC.
5. Make a plan for the year to include all the classes needed to fulfill your intentions including high school graduation, GER'S, and major prerequisites.
6. Bring the completed plan to your advising session for discussion and revision.

YEARLY PLAN—Student must fill in this plan for the entire school year

First Quarter Class Schedule	Second Quarter Class Schedule	Third Quarter Class Schedule
