EMT151 Winter Quarter

Explore an exciting career path

Emergency Medical Technician is a versatile and exciting career path. Training includes 160 hours of classroom instruction and hands on learning in a lab setting.

Additionally EMT candidates will complete a clinical internship in order to acquire a deep understanding of their role as a care provider and build confidence necessary to respond and treat patients in a setting that requires skill and autonomy.

EMT's completing the Wenatchee Valley College EMT program will complete a clinical field internship that includes such opportunities as

- ▶ Primary Care/Cardiac Rehab
- ▶ Cardiac Catheterization Lab (EP/PCI lab)
- ▶ Emergency Department
- ▶ Long Term Care
- ▶ Ambulance

Classes will be held every Tuesday and Thursday evening from 5pm - 9pm. Additionally class will be held on the following **Saturdays from 9am -3pm**
Jan 13,20; Feb 3,10,17,24; Mar 3,10,17

A Mandatory orientation will be held **Wednesday January 3rd 5pm-8pm**

Final End of Course/National Registry Testing will be held **March 24th 9am-3pm**. Successful completion of testing is necessary for WA State Course Completion and National registry eligibility.

Job opportunities as and EMT include

EMT/Firefighter, EMT Ambulance Technician, Emergency Department Technician, EMS Dispatcher, Disaster response, Beach lifeguard, National Parks Service, Patient Care Partner or Patient Care Assistant, Community Health Worker or Community Paramedicine Technician and many more.
